

The HON-Furniture has existed for nearly 100 years and originates from Jan Hon's founded family tradition in the year 1924. From a small carpenter's workshop eventually to one of the leading manufacturers for office furniture and furnishing objects in the Czech Republic.

The products are manufactured with modern technology and excellent software. Their own development department can achieve a continued perfection in this section. Mainly custom-assembled furniture from the catalogue is produced. However, the trend definitely goes to individual made to measure.

HON-Furniture has three production sites – the office furniture HOBIS is manufactured in Skripov und Opava, the daughter company Möbel Exner produces office furniture with the traditional brand EXNER in Kutná Hora.

The range of furniture products is successfully distributed in the Czech Republic, in the Slovakia, in Austria, Germany, Hungary, Sweden, Lithuania, Estonia, Latvia, Bulgaria, Scotland and in Mali, Africa.

The owners of the HON-Möbel GmbH are the married couple Václav Hon and Jana Honová who run the company with their sons so that the family tradition can be carried on.

170 employees work for the company.

All data is generated in the order entry and automatically transferred to the CNC-Machines. Furthermore, the customers are integrated in the complete marketing process from the planning over the calculation to the offer. imos is used for the complete order process, the production and as an internet solution for marketing partners:

Construction (Standard and Special design); commercial procedure with data transfer into the branch program Syteline including distribution-oriented support. Making production documents; generating the CNC-Programs for all machines.

With the installation of imos the firm HON can react fast on customer's demands and shift of the market without organizational changes in the operating procedure in the company. This is a decisive advantage towards the competitor.
